Subject: Nixdorf Lloyd Chain (MOD099238784)
2020 Corrective Action Universe

Dear Mr. Jaworski:

The Missouri Department of Natural Resources (MDNR) and the U.S. Environmental Protection Agency, (EPA) Region 7, have compiled a list of all facilities deemed appropriate and important to address using the Resource Conservation and Recovery Act's (RCRA) Corrective Action Program. Because this set of 3,880 facilities has national remediation goals which will culminate in the year 2020, it is referred to as the 2020 Corrective Action Universe. **Your facility is part of this 2020 Universe.**

MDNR and EPA are aware that corrective action activities have been completed at your facility, but the name of your facility continues to appear in the 2020 Corrective Action Universe. Since corrective action activities have been completed, no further action is required on your part in response to this letter and this letter only constitutes notice that your facility will continue to be listed among the original baseline facilities on the 2020 Corrective Action Universe. The list of facilities will be posted on EPA's web site at <http://www.epa.gov/correctiveaction> on April 16, 2007.

If you have further questions regarding this letter, please contact Patricia Murrow, project manager, at (913) 551-7627, or myself at (913) 551-7883.

Sincerely,

Lynn M. Slugantz
Chief
